ABOUT THE DEPARTMENT

Sanjay Ghodawat University was established as a State Private University in the year 2017. Previously it was Sanjay Ghodawat Institute formed in the year 2009 by the Chairman of SG Group, Sanjay Ghodawat. The Institute had received NAAC A grade and also its programs were accredited by NBA and after this the natural progression was the evolution of Sanjay Ghodawat University. In that Aerospace engineering is primarily concerned with the design, analysis and maintenance of aircraft and spacecraft. M.Tech. in Aerospace Engineering & B.Tech. in Aeronautical Engineering begins with courses that give you an excellent grounding in both engineering and calculus-based physics. Students who choose to earn an aeronautical engineering degree at SGU are part of a prestigious program at a University that is ranked in the nation's top tier. Research projects and relevant hands-on workshops involve concepts and systems that help students master the skill sets required for the Industry. Aerospace department has articulation with Sanjay State University for UG & PG programme.

ABOUT THE WORKSHOP

Aircraft maintenance is the performance of tasks required to ensure the continuing airworthiness of an aircraft or aircraft part, including overhaul, inspection, replacement, defect rectification, and the embodiment of modifications, compliance with airworthiness directives and repair. Due to the development of technology, many advanced and precision methods are used to accomplish the maintenance activity. This workshop will provide you the insight of Recent Trends & development of aircraft maintenance Program and career opportunities in the field with hands on training on live helicopter and aircraft.
