- ✚ Industry visit provides students a practical perspective of the work place.
- ✚ It provides students an opportunity to learn practically through interaction, working methods and employment practices.
- ✚ To provide an opportunity to the students to explore different sectors like IT, Manufacturing, services, finance and marketing.

About company-

Exalt Enviro is a consultant company which has installed a food waste energy plant near to Kagal, Kolhapur. The electrical energy is generated in this plant using waste food which acts as a resource to this plant. This waste food is daily collected from Kagal city. The installed capacity of the plant is 600KW which requires a food waste of 4 tone's per day. A Methane gas is produced in Digester unit of the plant which is send to gas driven engine. The gas driven engine is coupled to generator which generates the electrical energy.
