

Embedded Systems Lab Installed at Sanjay Ghodawat University

The Embedded systems lab was installed at Sanjay Ghodawat University sponsored through Cypress Semiconductors and ARM University Program on 13th Oct, 2017. The lab will afford students of Electronics and Electrical students the benefit of online courses free of cost by training partner EduVance, Mumbai. The courses are all related to Embedded systems & IOT and will thus help the students gauge the requirement of technology for the Industry and also help them develop their technical skills.

Cypress Semiconductors had previously studied the standard of education quality and the infrastructure facilities at the University before going for an MOU with the University. The MOU was made through the Educational Training Partner EduVance. Dr. Jonathan Joshi (CEO, EduVance) was present during the occasion and expressed that the lab training courses will afford the students of getting good jobs.

The set up of the lab received guidance from the Trustee, Mr. Vinayak Bhosale, the Vice Chancellor, Dr. VA Raikar, the Registrar Dr. Hirdekar and the Director of SGI, Dr. V V Kulkarni. Mr. Amit Sarkar (Head TPO) took special efforts in the setting of the lab. The President of the University, Mr. Sanjay Ghodawat expressed happiness over the development at the University.
