ENGINEERING**

SUMMARY REPORT OF IOT TRAINING WORKSHOP

It gives me immense pleasure to present this report of “IOT WORKSHOP” which was conducted by TREEZEC SOLUTIONS, under the flagship of renowned business firm BWRL, at SGI Atigre from 22/09/2018 onwards for consecutive 3 weekends for a total course of 6 days .

For this workshop 84 students of third year E&TC as well as CSE had enrolled where they have gained hands on training in Arduino Interfacing with different sensors and suitable programming. Nevertheless, some home and Industrial Automation applications along with programming were taught to our student’s .In a nutshell the students have possibly received guidance to explore unknown ventures by generating awareness towards the wide scope of Internet of Things (IOT). In the coming years, we the Department of Electronics & Telecommunication Engineering wish to conduct such knowledge enriching sessions to endeavor excellence in our student’s performance in order to cope with the needs of Industry standards.
