Department of Electronics and Telecommunication Engineering
Industrial Visit at

Ghodawat Group of Industries, Chipri, Kolhapur,

I) Bottling Plant II) Namkin plant III) Rice Mill Plant.

Department of Electronics and telecommunication Engineering has successfully conducted an Industrial Visit at Ghodawat Group of Industries for TE students of E&TC department on 14th July 2017. The details of this Industrial Visit are as below.

Title:

Industrial Visit to Ghodawat Industries- Bottling Plant, Namkin Plant, Rice mill plant.

Industrial Visit Report:

Electronics & Telecommunication Department (E&TC) arranged Industrial visit at Ghodawat Group of Industries for TE (E&TC) students. 80 students of TE A & B divisions participated in this Industrial visit and accompanied by 4 faculty members.

Students could see various types of advanced Automations used at bottling plant, Namkin plant and Rice mill plant. Students understood the total process flow from raw material to the final packed finished product usable to the end consumer. Students got knowledge about various electronics and mechanics circuits and mechanics used to create automated systems with very minimum human interventions. This has helped the students to gain knowledge about advanced industrial automation and provoked them for such advanced technological thinking.

Faculty Members Name:

1) Mr. Pritam Nikam, 2) Mr Vishnu Kambale, 3) Mrs. Sushmita sharma, 4) Mr Sharad Ghule.
