Department of Electronics and Telecommunication Engineering

Brief Report of Microsoft Certification Workshop

Department of Electronics and telecommunication engineering has successfully conducted a three days workshop on **Microsoft Certification** for T.E. and B.E. students under **VAT cell** as well as under **Industry Institute Interaction cell** on **27th to 29th July 2017**.

The details of the workshop is as follows,

Title: “IT Security Certification and Cross Platform Mobile Apps Technologies”

Objective: This workshop was about the techniques and best practices. This course showed how students can become Microsoft Certified professionals. This workshop was included with IT security examples with ethical hacking skills & also it is going to help the students to develop and to get **Global Certifications from Microsoft**. To increase the impact and effectiveness of the workshop, as far as possible lectures followed by hands on practice sessions were planned.
